

From the Zone 13 Rep

March 24, 2022

From what I have been seeing, it appears most regions have had their first event. Many of us have been ready. The weather can still be unpredictable, so be careful of driving on summer performance tires when the temps drop below 40 degrees. But I really hope you have good turnouts and a good time.

Speaking of events, the Zone will have some good events that will attract the regions. In Wisconsin, the Chicago region will be hosting a 4 Region Bar-B-Que. The 3 regions of Wisconsin and Chicago had a very large turnout last year of at least a couple hundred cars and an even greater number of PCA members. The Bar-B-Que was catered in and was very good. The date will be May 21 and I am sure it is welcome to other regions who would like to come. There was a special gathering of Boxsters to celebrate the Boxster anniversary which made a great display. This year will no doubt be a large, if not larger turnout than last. Don't hesitate to contact the Chicago Region for info and to get onto the contact list. Contact Bobby Kurek of Chicago for help. rjankurek@gmail.com

The other significant event on the other side of the Zone will be the Keeneland Concour. The Keeneland Concour is in Lexington, KY on the beautiful Keeneland grounds. Racing horses are surrounding the property and the grounds are the perfect scenic backdrop to a first class concour. It is a park like setting. And if that was not enough, the featured marque this year is Porsche. It will be the first time since 2004 that Porsche will be featured. There is already much enthusiasm for the event with regions from the surrounding areas. Expect to see an expanded car corral for Porsche parking this year. It will be a great show on its own. You can contact Ken Hold, Pres of Bluegrass Region for info and also visit the Keeneland Concour website. Ken Hold kendellhold@twc.com
